

Tri Golf

- £2 per child for ½ hour
- Ages 5 – 10
- Saturday afternoons 2.30 – 3pm

Tri Golf is a mini version of golf, set up by The Golf Foundation, using specially adapted equipment, which makes it fun and safe for children of all ages. To date it has attracted over 500,000 primary school children into the game of golf.

Tri Golf equipment is specially designed with young children in mind. The oversized golf clubs are made from soft plastic and the golf balls are made from super soft foam, meaning games can be played either inside or out.

All the games are specifically designed to link in with the Government's School Curriculum, offering further educational development, whilst at the same time playing games and having fun.
